MEMORANDUM FOR: Deputy Director for Central Intelligence

FROM : Hans Heymann, Jr.
National Intelligence Officer at Large

SUBJECT : Report of the IG to the President on Resumption
of US Participation in the IAEA

1. Background. The subject report (Attachment A) is the culmination of the work of the IG that began soon after the US walkout of the IAEA last September. The draft was discussed at the final IG meeting that was held yesterday (see [redacted] record of proceedings (Attachment B)).

2. Key Findings. Essentially, the report tells the President that (a) there is no alternative to the IAEA's safeguards system which is critical to US national security and nonproliferation interests, and (b) in resuming its participation in the IAEA, the US will work to counter the trend toward politicization of the IAEA.

3. Intelligence Support. In the course of the IG's work we provided two papers, one on the voting record of certain IAEA member states, and the other on the importance of IAEA to the US [redacted]

Moreover, at Ambassador Kennedy's request, we will be proceeding with the preparation of an IIM on the prospects for the IAEA's safeguards system--see the draft concept and terms of reference, Attachment C.

4. Recommendation. I recommend that you approve (i.e., "clear") the IG's report to the President.
